Description

Who is Hiring?

This is your moment to work with a premier Customer Solutions and Salesforce Platinum Partner company and learn from some of the best Salesforce stars in the industry. Their cutting-edge strategies and digital transformation expertise have helped many businesses around the globe become bigger and better than ever.

My client is currently hiring for a Salesforce Developer with a go-getter attitude who can support various project delivery development tasks. This can be a truly rewarding career with swift growth prospects for anyone who can prove his/her mettle in the domain. Those who have a robust experience in Apex will have a definite edge over the competition.

What you'll be doing

- Support all in-development tasks
- Execute end-to-end tasks of the project lifecycle and deliver custom-made solutions
- Collaborate with the service management team to work on assigned service cases
- Help design customised solutions to meet their client needs
- Implement essential functionality after understanding the specifications and solution designs
- Calculate risks and flagging issues affecting the project

What you'll bring to the role

- Robust experience in Apex preferred
- Experience in Visualforce/Lightning development skills
- Demonstrable experience in Java or .Net
- Demonstrable experience with integrations; 3rd party integration
- experience is a bonus
- Experience with data migration tools
- Knowledge of best practices using Salesforce Platform
- Experience in Service Cloud and Sales Cloud
- Team Player with a go-getter attitude

Benefits

- Attractive remuneration up to £60K depending on experience
- An excellent opportunity for undergoing professional skills development
- Opportunity to work with some of the best technical minds in the industry
